Message to Members

Wayne Caldwell, MCIP, RPP
President 2007-2009

Predicting and even speculating on the future is inherently challenging. There is much that we don't know. We can look at events of the last 25 years and appreciate this challenge. The demise of the Soviet Union and the fallout from 9/11 would not have been on the radar in 1982 when I began my career as a planner. Predicting in what can be a chaotic world is at times near impossible. And yet, as planners we face this challenge on a daily basis. It is our professional responsibility to try to identify and interpret trends that impact and influence the communities within which we live and work.

In some ways these same challenges face OPPI Council on an on-going basis. What are the current and future issues that will impact the profession? What are the strategic directions that we as a profession need to move in? How do we ensure that we have sufficient resources to address the Institute's needs and of course — connected to these administrative realities are the tough questions connected to resources and budgets. These are questions that are given much consideration at a staff and Council level. Fortunately, over the years OPPI has had the good fortune of responsible and visionary Councils. Your current Council is no exception.

Through Council, staff and a multitude of volunteers that support the Institute much has been accomplished over the last number of years. Support for the Healthy Communities initiative and related Calls to Action have been overwhelming. The Institute has received a provincial and at times national audience for our messages of thoughtful and visionary planning. This one initiative has led to much media coverage and presentations to the Ontario Municipal Board, a number of Ministers, stakeholder's and perhaps more importantly, it has made inroads into the psyche of the province's population. The need for planning and the recognition of what planning can do for society is increasingly acknowledged.

Some of our new and on-going initiatives also hold much promise for the future. As we continue to review our membership requirements we recognize the importance of reaching for professional standards that will help to ensure excellence and facilitate new planners as they enter the profession. I think there are also reasons to be excited about our willingness to look to the Institute as a resource and centre of excellence for planning. I am also pleased to see our willingness as a profession to push the boundaries of what it means to be a planner and in this process to be more willing to accept new ideas and an increasingly diverse membership. I believe that in the future there will be more reasons than ever to embrace membership in OPPI.

This is my last formal message in my capacity as President of the Institute. I am thankful for the trust that has been placed in me and for the stellar support of Council, staff and a large group of volunteers. It has been a privilege for which I shall remain forever grateful.

- ✓ Congratulations to our 2009 winner, *Ottawa Escarpment Area District Plan* as the winner of the joint OPPI and Heart & Stroke Foundation Award for *Excellence in Planning for Healthy Communities*.
- ✓ Conveying key messages about the Healthy Communities Initiative to key stakeholders such as the Minister of Health Promotion, Ontario Municipal Board, and the Association of Local Public Health Agencies, and creating a sphere of awareness of the impact that planning and the profession impart on fostering healthy communities.

Acts as a resource and centre of excellence for planning

Develops and maintains professional standards in the interest of the public of Ontario

- ✓ Continued participation in the national review of membership standards, criteria and process; with scheduled completion in 2011 pending membership approval.
- ✓ Representatives of OPPI and the Law Society of Upper Canada met at Osgoode Hall regarding the continuation of OPPI's exemption from the paralegal licensing requirement of the Law Society Act; with a decision pending Fall 2009.
- ✓ Brought OPPI's By-law in compliance with new federal and provincial legislation affecting labour mobility.
- ✓ Investigating the feasibility of regulating the planning profession through provincial legislation with a newly appointed Professional Practice Advisory Group.
- ✓ Revision of Professional Practice Standards, providing guidance on the Professional Code of Practice to members holding dual professional memberships.
- ✓ Nearly 200 oral interview exams (Exam A) were scheduled this year, for long-standing Provisional members needing to fulfill the By-law requirement to attain Full membership.
- ✓ Discipline matters have been conducted and reported to members through the 2009 Ontario Planning Journal Jan/Feb issue and the Annual Report.
- ✓ *Discipline Rules of Practice & Procedure* are now available to members and the public from the web site in keeping with improvements to the discipline process.
- ✓ A Member Register is now available on the web site providing members and the public with a list of current OPPI members.

Discipline Report

Paul J. Stagi, MCIP, RPP Chair, Discipline Committee

Complaints

The Discipline Committee receives complaints regarding alleged breaches of the professional code of conduct by members. Over the past decade, the Discipline Committee has typically received one to four such complaints per year. Since last year's Annual General Meeting, the Discipline Committee has received two complaints. As of today's date, there is still one complaint open, being actively investigated by the Sub-Committee appointed for this purpose.

Since October 2008, the Discipline Committee has dismissed two complaints based on the recommendations of the investigating Sub-Committees. The complainant in one of these cases made further written submissions to the Discipline Committee as allowed under section 4.3 of Appendix II to the OPPI By-law, requesting that a full disciplinary hearing be held regarding the allegations. The Discipline Committee confirmed its original decision to dismiss the matter instead.

Disciplinary Matter

The Discipline Committee during this last year also conducted two hearings and issued decisions regarding two members. In both of these cases, the individuals involved were found to have breached the Professional Code of Practice. As allowed under section 8 of Appendix II to the OPPI By-law, one of the two individuals requested that Council review the Discipline Committee's decision. Council confirmed the decision of the Discipline Committee.

The Executive Director was charged with implementing the two decisions of the Discipline Committee, and has done so. The decisions were published in the January/February 2009 issue of the Ontario Planning Journal.

Process

The Discipline Committee met to identify possible improvements to the discipline process. As a result, *Rules of Practice & Procedure* were drafted. The draft Rules were reported to and endorsed by Council, and pursuant to the provisions of the By-law they were issued and came into effect on July 15, 2009. The Rules are available on the OPPI web site.

The Discipline Committee also proposed to Council certain amendments to the OPPI By-law. Those amendments were adopted by Council and are pending confirmation by the membership.

The Discipline Committee intends to work with OPPI staff to continue improving the administration of the Discipline process. As well, more opportunities will be used to educate the membership (through the Journal, e-newsletters and Standards of Practice) as to the nature of complaints received, ethical dilemmas encountered, and problematic planning profession practices.
